Dear friends and marine community,

The overwhelming response and support to Great Lakes Boat Building School's facility and programming expansion over the last year has been inspiring. At a local level – our donors, community, EUP planning commission, Invest UP, and others have stepped up by not only providing financial resources but volunteer time and strong enthusiasm for growth. Nationally – we are engaging major manufacturers such as Tiara Yachts, Mercury Marine, Intrepid PowerBoats, Victron Energy, Ilmor and more to move the school forward to offer the best, most intensive programs for our students. Our State and Federal Legislators and agencies have shown tremendous advocacy for GLBBS. GLBBS was recognized by Representative Jack Bergman's office with a Congressional Record during my visit to Washington, D.C. in April.

On October 1, all of the above gathered together to break ground for the new Marine Technology Facility with a common goal in mind – graduate more skilled trades students for the marine industry. Our facility expansion will facilitate:

- growth up to 50 students annually
- establishment as the only school in the northern United States offering Mercury Level II certification
- offering the first specialized Marine Electronics Technology program in the country.

As the last quarter of 2022 progresses, we reflect with pride at what we are building for the marine industry in Cedarville, Michigan. This would not be achieved without the support of the federal EDA grant and the generous donors to the "Come Aboard, Launch Careers" capital campaign. A primary goal of GLBBS is to ensure tuition is affordable for any student who may have a passion for working in the marine industry. With that, please consider a gift to the Annual Giving Society which supports the Student Enrichment Fund assisting in positively transforming the lives of our students as outlined on pages 14 & 15.

The year 2022 was inspirational at GLBBS, I look forward to the good news I will share with you in 2023!

In gratitude,

A handwritten signature in blue ink that reads "Nikki".

Nikki Storey
GLBBS President

INKIND DONATIONS THANK YOU!

Generosity can take many forms and is only limited by the creativity and good will of our donors. At Great Lakes Boat Building School we feel fortunate and appreciative to the following entities for supporting our mission in these unique and valuable ways. Thank you!

2021

A photograph of three people standing in a workshop. On the left is a woman with blonde hair wearing a dark blue dress with a green floral pattern. In the center is an older man with a white beard and glasses, wearing a light grey t-shirt and shorts, holding a framed plaque. On the right is a younger man with a mustache wearing a blue polo shirt and grey shorts. The background shows a boat under construction with the name 'Strike' visible.

STEVE VAN DAM GRANTED EMERITUS PROGRAM ADVISORY BOARD MEMBER STATUS

President Nikki Storey and Lead Instructor Matt Edmondson recognize Steve Van Dam as Emeritus at his retirement party at Van Dam Custom Boats.

Steve Van Dam, Program Advisory Chair and co-founder of Van Dam Custom Boats in Boyne City, Michigan, has been granted Program Advisory Board Emeritus status from Great Lakes Boat Building School. Van Dam is the first advisory board member to receive this honor. He was a member of the school's inaugural advisory board, serving the school for ten years.

Chairman Joe Reid congratulates and thanks Steve Van Dam on his long standing commitment to GLBBS.

“We were so fortunate to have someone with the reputation and passion for wooden boat building like Steve Van Dam involved during the formative years of our school,” said Nikki Storey, President, Great Lakes Boat Building School. “The same commitment Steve and his family have to the highest quality of boat building and continuous improvement has had a positive impact on our programs and ultimately in preparing our graduates for the workforce.”

“I am humbled by this gesture; however, it is the school administration that should be celebrated,” said Steve Van Dam. “It brings me great joy to watch this team drive the school forward in our vision to be the leader in marine workforce development in the Great Lakes region. To play a small part in pursuing that vision has been my reward.”

Congratulations Steve and thank you for your commitment to GLBBS students and programs!

WE'RE HIRING!

Join us in shaping the future of the marine industry workforce and become part of a growing team in an expanding post-secondary marine training school! Move your career to a new level by **becoming an instructor** at Great Lakes Boat Building School.

To apply, email your resume, cover letter, and three references to hr@glbbs.edu.

OUR NEW PARTNER: ILMOR

This fall GLBBS is excited to announce a new manufacturer partnership in the marine industry! Ilmor Engineering and GLBBS are partnering to offer equipment and training to students in the Marine Service Technology program. Ilmor has a long history and solid reputation in racing, starting in 1984 building racing engines for the Indy race series, and later as an engineering and development company for race engines of many kinds. With 21 Indy 500 wins, Ilmor boasts the most wins in the series of any engine manufacturer. In 2000, Ilmor branched into the high-performance marine engine segment, an area in which they continue to innovate and expand.

So, what's this mean for GLBBS? First and foremost, in the current boating market, Ilmor is the exclusive engine provider for MasterCraft ski and wake boats, offering high performance

and efficiency for the massively popular towsports segment of the market. While the industry has become dominated by outboard engines, direct drive and vee drive inboards still have their place, and many of our MST graduates go on to work at dealerships that sell and service inboard powered watercraft. In addition to towports engines, Ilmor also offers high performance sterndrive (inboard/outboard) products to names like Formula and Eliminator powerboats, an ever growing number of manufacturers in the high performance "sport" sector of pleasure boating. Ilmor primarily offers engines from the 5.3 to 7.4 liter range, including the new top tier supercharged model for the MasterCraft X25.

Thanks to product donations from Ilmor, students at GLBBS will have the opportunity to be trained on these towports engines and drives, including inboard engine transmissions from manufacturer ZF. With advancements in EPA compliance such as catalytic converter systems, advanced cooling systems, and high pressure direct injection systems, Ilmor

engines are the perfect modern inboards for students to train on. Students in the MST program will be eligible for an Ilmor backed certification, which is another great feather in their caps along with the current Mercury and ABYC certifications.

With the school's vision to be the leader in marine workforce development, we are grateful for the support and partnership from industry leaders such as Ilmor. We are excited to be able to offer our students yet another opportunity for training, and we are proud to be preparing the best technicians possible.

Ilmor's Oliver Ray, Mike Lindberg with GLBBS Nikki Storey, Tom Coates and Matt Edmondson

GREAT LAKES BOAT BUILDING SCHOOL SIGNS ARTICULATION AGREEMENT WITH NORTH CENTRAL MICHIGAN COLLEGE

GLBBS and Petoskey's North Central Michigan College (NCMC) have signed an articulation agreement that will provide a seamless transition from the technical certificate earned at GLBBS to an associate degree at NCMC.

Under the agreement, GLBBS students who complete either the Comprehensive Boat Building program or the Marine Services Technology program will be able to enter NCMC with up to 39 credits toward an Associate of General Studies (AGS) degree. The credits will satisfy the elective portion of the degree, which accounts for more than half of the 60-credit AGS. Students who complete the AGS will be able to transfer their NCMC credits to any 4-year college or university that is part of the Michigan Transfer Agreement.

GLBBS Director of Education Donna Fiebelkorn said the agreement provides another avenue for the school to support students well past graduation. "Part of the development process at GLBBS includes helping our students to look longer-term at career options," Fiebelkorn said. "Often, those options involve additional post-secondary education."

NCMC Vice President of Student Affairs Renee DeYoung and GLBBS President Nikki Storey said the NCMC AGS degree will offer students greater career mobility and more opportunities for advancement. "This articulation agreement with North Central is an exciting opportunity for our students to enhance their education while making them even more employable," Storey said. "It's aligned with our mission of preparing students for rewarding careers in the marine industry."

GLBBS' Eric Renshaw, Donna Fiebelkorn, and Nikki Storey with NCMC's President David Roland Finley, Vice President of Academic Affairs Stephen Strom, and Vice President of Student Affairs Renee DeYoung

Congratulations CLASS OF 2022

It was a beautiful August day when GLBBS staff, the community, and students and their families came together to celebrate this year's graduating class. Congratulations Class of 2022 on all your accomplishments throughout the past year! We wish you all the best as you begin the next chapter!

KEEPING UP WITH THE 2022-2023 STUDENTS

GLBBS RECOGNIZED AS A SILVER-LEVEL VETERAN FRIENDLY SCHOOL

Great Lakes Boat Building School is extremely proud to be recognized as a Michigan Veteran Friendly School for the 2022/23 academic year. In the 2021/22 academic year, GLBBS was recognized as a Bronze-Level school. This school year, GLBBS has earned the Silver-Level status. Status level for a school is determined based on criteria such as services and resources provided to veteran students, veteran graduation recognition, and more. Great Lakes Boat Building School is honored to receive the Michigan Veteran Friendly School Silver Level-Status, and will continue to work hard to provide veteran students with the resources they need for a quality education in the marine trades. Thank you to all of our veterans and to our current military for your service!

For more information about Michigan Veteran Friendly Schools, visit michiganvets.force.com/veteranfriendlyschools/s/ dashboard today.

Pictured are the 2022/23 military veteran students attending GLBBS. From left, David Turner, Jim Perkins, Robert Anderson, Michael Denning, Jonathan Smither, and Mathew Johnson.

Start Your Career Here!

Visit GLBBS Saturday, November 5 from 10:00 am - 1:00 pm and see how the school's programs can help launch your career in the marine industry!

Kyle's positive energy was infectious at GLBBS with students and staff. Kyle is multi-talented with a bachelor of science from Northern Michigan University in MicroBiology and a career as a musician. As a career changer, Kyle had spent the first part of his life working as a Division Manager at a scrap metal company. He determined the office work responsibilities of the job didn't suit his needs. Kyle wanted a career he was passionate about - working with his hands. Determining no one would hire him without the validation of certifications, he enrolled at GLBBS. As the recipient of the Gage Marine Sponsorship Award, he has found a home in the marine industry at their Delavan, Wisconsin location. We're so proud of you Kyle, and know you will be an asset to the marine industry!

Sasha came to GLBBS after attending Macomb Community College and receiving a Marine Technician Certificate. He determined he wanted to further his education and receive certifications to expand his opportunities for a career in the marine industry. With a focus on hands-on learning, he determined GLBBS was the right fit for him. Sasha was a terrific student at GLBBS and has found a home working with Scot Graden of Walloon Central Marine. Congrats Sasha on your new career!

Kyle is a Marine Service Technology Graduate, now working as a Marine Mechanic.

"I really love working at Gage because every day is a challenge. Not only is everyday a challenge but those challenges are supported with the education that I received at GLBBS. The atmosphere is all about teamwork, GLBBS and Gage Marine are a cut

above the rest. I feel like I'm part of a great family here and I'm very happy with my career path. I'm looking forward to the future here, not only to hone my skills, but also as a place to raise a family."

"The most valuable thing I learned from going to school is to use your resources and don't be afraid to ask questions if you don't know. The thing I love most about my current job is being able to work and figure out problems and help customers enjoy the boating industry!"

Sasha is a Marine Service Technology Graduate, now working as a Marine Service Technician.

Veteran graduate Grant spent four years in the Navy serving as a Torpedo Mate performing all weapons maintenance on a submarine in the Islands of Hawaii. Upon his honorable discharge, Grant decided to put his Montgomery G.I. Bill™ veteran education benefits to use by enrolling at GLBBS to receive training on something he could see visible measurable progress with the satisfaction of completion. With his outstanding performance in the Comprehensive Career Boat Building program, GLBBS Instructor Eric Renshaw encouraged him to consider applying for an Instructor Aid position. Welcome Grant to the team at GLBBS, supporting students as they find careers in the marine industry!

After graduating from Gogebic Community College in Ironwood, Michigan with a degree in Ski Hill Management, Ian went on to work in Breckenridge, Colorado. After some time, Ian decided to switch gears. Ian enrolled in GLBBS because he wanted a specialized program with a focus on hands-on skill development and small class sizes. Before graduating, Ian was offered a position working with Tommy's of Walloon Lake. He was thrilled because he loves to wakeboard and employees get to take out the rental boats before work! Congrats Ian and we look forward to seeing you on the waters of Walloon Lake living your best life!

Great Lakes Boat Building School is thrilled to have hired Grant, a 2022 Comprehensive Career Boat Building Program alumni as an Instructor Aid.

"What I love most about my current job is the people. They are always willing to help me become better and grow as a boat builder, instructor, and a person. The environment here from both sides as a student and now as a staff member is incredible. Everyone here is invested and driven to make this a better place from the students to the board of directors."

"The biggest benefit from attending GLBBS was the exposure I got to different areas of the industry as well as a wide exposure to different types of boats. Seeing those things gave me a great idea of what part of the industry I wanted to go work at. I really enjoyed my time at GLBBS. It was a great experience matched by nothing else. I feel the instructors were more than qualified to teach and were able to give me all the knowledge I needed to succeed in this industry."

Ian is a Marine Service Technology Graduate, now working as a Marine Service Technician.

“COME ABOARD, LAUNCH CAREERS” CAPITAL CAMPAIGN UPDATE

Chairman Joseph Reid, President, Nikki Storey and Director of Development, Tom Coates

In December 2021, the campaign was launched to raise \$1.1 million for the school’s 20% match to the \$2.7 million U.S. EDA Grant and to fund essential equipment and fixtures. This aspirational challenge included a goal to complete fundraising by September 30, 2022.

On Saturday, October 1st, the ceremonial sod was turned to commemorate the outstanding fundraising progress and legislative support the school has received.

This momentous occasion provided an opportunity to reflect on the path traversed to get here. Highlights of the campaign include seeking the imperative buy-in within the organization followed by generous donors stepping forward with leadership gifts. It was encouraging to have several previous donors to the school participate and equally impressive were the new donors and foundations who were inspired by the compelling GLBBS mission.

Board of Directors: Joseph Reid, Patrick Schuster, Jessica Fusco, Donald Moore, Christopher Gutowski and Jason Dunn

When the campaign needed an injection of additional momentum, the innovative “Fill in the Planks” program was implemented. The goal is to seek donors of \$1,000 each to have their name, or that of someone special to them, recognized on planks on the future boardwalk. The fact that a local family committed to matching gifts for a specified period is essential to this success. To date, \$93,000 has been committed!

WE HAVE RAISED
95%
OF FUNDS NEEDED

FUNDRAISING PROGRESS:

RAISED TO DATE:

\$3,654,057

TOTAL PROJECT COST:

\$3,846,376

Current and former Board Chairmen: Joseph Reid, David Wallace, Robert Smith, Paul Wilson, and Kenneth Drenth

During the GLBBS Beerfest & Boatyard Bash, twenty-one plank donations were secured to surpass the \$1 million threshold or approximately 95% of the campaign goal.

We are almost to the finish line! Help us cross it.

Program Advisory Board: Reuben Smith, Terry Monville, Norris “Sandy” Bryson, Steven Van Dam and Nick Van Nocker

Office Manager, Kelly Emigh and Volunteer, Michelle Scheckler

Program Advisory Board Line-up: Steven Van Dam, Van Dam Custom Boats; Reuben Smith, Tumblehome Boat Shop; Nick Van Nocker, Mercury Marine; Daryl Heyboer, Mercury Marine; Brian Nettleton, DeTour Area Schools; Norris “Sandy” Bryson, Michigan Maritime Museum; Matt Edmondson, GLBBS; Terry Monville, West System; David Lesh, Walstrom Marine; David Ottenhoff, Jefferson Beach Yacht Sales; Launa Kohler, Irish Boat Shop

Groundbreaking SOCIAL

Saturday, October 1st was a beautiful day for donors, supporters, and friends to participate in the groundbreaking ceremony. Thank you to everyone who attended the groundbreaking ceremony and thank you to those who continue to support Great Lakes Boat Building School, the programs, and most importantly, the students!

Introducing...

THE GLBBS STUDENT ENRICHMENT FUND

At Great Lakes Boat Building School the students are at the absolute core of everything we do. Whether it is faculty, facilities, field trips or student life experiences, the GLBBS Board of Directors and leadership strive to provide the very best learning environment for our students.

The GLBBS Vision is to be the leader in marine workforce development in the Great Lakes region and beyond. Implementing this vision requires enhanced learning resources and initiatives that cannot be adequately funded by traditional operational budgets.

Continuing to keep tuition as affordable as possible is extremely challenging. By supporting the GLBBS Student Enrichment Fund you will be a partner in the progress of providing GLBBS students with rewarding careers in the marine industry.

To make your commitment by supporting the Annual Giving Society go to <https://glbbs.edu/support/annual-giving-society>

Q How can you support the GLBBS Student Enrichment Fund?

A By joining the GLBBS Annual Giving Society! Your support will elevate the GLBBS educational experience and directly benefit our students. **Select your membership level from below:**

Since we are the marine trades school of the Great Lakes, please consider joining the Annual Giving Society at one of these “Lake” levels and you can see a few examples of how your gift may positively impact the GLBBS student experience.

LEADERSHIP GIVING LEVELS

SUPERIOR | \$10,000 +

Fund the latest in boat building, marine engine or marine electronics equipment providing GLBBS faculty with the educational tools necessary to teach the most current hands-on industry expertise.

HURON | \$5,000 TO \$9,999

Provide lumber, hardware and other supplies needed to construct the traditional Indian River Skiffs built in the Comprehensive Career Boat Building program.

MICHIGAN | \$2,500 TO \$4,999

Fund a student field trip to a marine manufacturer or marina operator for students to learn about rewarding career opportunities in the marine industry.

ERIE | \$1,000 TO \$2,499

Assist with the purchase of replacement parts and diagnostic equipment for the Marine Service Technology shop.

ONTARIO | \$500 TO \$999

Support professional development for talented GLBBS faculty members to enable them to remain current with the trends in the marine industry.

LES CHENEUX ISLANDS | UP TO \$499

Provide funding for student life activities such as ski memberships, attending hockey games and other events to complement their work in the classroom, library and shop.
